SERIOUS ACCIDENT.

Ah Hing, Servant for Dr. McGrew, Fractures His Skull.
There was a very serious accident at the home of Dr. and Mrs. J. S. McGrew, Hotel street, about 6:30 p. m. yesterday. A canary bird had escaped from one of the cages on the lanai, and Dr. and Mrs. McGrew had followed it out to a tree on the Ewa side of the yard, close to the fence.
Ah Hing, the faithful half-Chinese boy, who has been with the McGrew family for over 11 years, was on the scene at once and climbed the tree after the bird. He had placed himself fairly upon one of the lower branches, when it broke, and let him fall to the ground. The picket fence was directly beneath him, and as he fell, the left side of his head struck one of the pickets and fractured the skull in a frightful manner. He was taken into the office, where Drs. McGrew and Raymond pressed the parts together, bandaged the poor fellow's head and sent him to the hospital.
An operation was performed there, and the unfortunate young man made as comfortable as possible. Upon inquiry late last night the patient was reported to be resting quietly. The injuries sustained are of a serious nature, but the physicians in charge hope for the best.

A Good Whaling Story.

"When a whaler is fitted out from home she takes her officers, boat-swains and a few foremast hands and steers for the Western Islands (Azores). Arrived there, a boat is lowered, and a box of new boots put in it. The crew pull ashore, into some convenient little bay surrounded by woods, and landing, they open the box of boots and stand them all along in a row and pull all the boots on and off again, one after the other. They then board their boats and pull off around the point out of sight, and the natives, who have been watching them from the woods, come down and try the boots on. When the officer in charge of the boat thinks they have had time enough to be fitted he comes back, and the poor 'Gees, being unable to run with the boots on, are easily captured and carried off whaling. I know this to be a fact, for the whalers told me of it themselves.—On Many Seas.

Good in Warm Climate.

One of the pleasantest drinks on a warm day is good, cold cider. The best product of the apple comes from the famous orchards in New York State, and the demand for it has been so great during the past few years that a factory has lately been established in the center of the great apple district of the Empire State.
Almost the entire crop of Golden Russet apples in the State are taken by the owners of this factory and made into what is known as Mott's Golden Russet cider and shipped all over the United States. A large quantity has recently been received here.

En Route to England.

Hon. Richard J. Sedden, Colonial Treasurer and Premier of New Zealand, was a passenger on the Alameda, en route to London, where he will witness the celebration of the 60th anniversary of Queen Victoria's reign. During his short stay here he was shown around the city by officials of the Government, and in the afternoon called at the Hobron residence, where Miss Ethel Smith was giving a lawn party.

In Their New Uniforms.

The old familiar sight of clerks walking about in the Post Office minus coats was changed yesterday, and instead there might have been seen strutting about proudly the same clerks in neat gray coats, with brass buttons. Some of them looked rather shy and perhaps a little conscious, but toward 4 o'clock in the afternoon these symptoms had disappeared, and the usual calm was once more noticeable.

From the Admiral.

Rear Admiral Beardslee, accompanied by Lieut. G. M. Stoney, called at the office of the Bureau of Agriculture yesterday and left a large package of different seeds, which he had brought with him from the States. His kindness was much appreciated by the Acting Commissioner of the Bureau, who will reciprocate and have packed up for the Admiral a collection of Hawaiian seeds. Lieutenant Stoney will not be forgotten.

Battalion Drill.

There was a fairly good turnout of the First Battalion, N. G. H., last night, the inclement weather and side attractions undoubtedly keeping a goodly proportion of the members of the various companies away. After being drilled by Major McLeod, the battalion was turned over to Captain Smith of Company A for dress parade. Dismissal followed soon after.

Funeral Today.

The funeral of the late Sergeant Ferry of the National Guard of Hawaii will take place from his residence at 2 p. m. today. The remains will be accompanied by Companies A and F, National Guard of Hawaii, and members of the Odd Fellows' lodge, of which deceased was a member.

The 14 members of a Chinese stock company of actors in Boston have been adjudged guilty of violation of the Sunday law, though they claimed that the party they presented was of a religious character.

GOMEZ IS CONFIDENT.

Troops Well Placed in Small Bands About the Province.
HAVANA, Cuba, April 18.—A letter from Sancti Spiritus says last week Gomez passed three miles from the city on his way from La Reforma estate, on the eastern border of this province. His army was composed of 3,000 cavalry, 1,500 infantry and four pieces of artillery.
Gomez said he was fully confident now that the final triumph of the revolution will be achieved very soon. It is said that Gomez has scattered his forces in small bands, which swarm all around the estates of La Reforma and Juan Criollo.

Cloud of Humming Birds.

PORT TOWNSEND, Wash., April 19.—The steamer City of Pueblo, which arrived here last night from San Francisco, had a peculiar experience Saturday. While steaming along at a rapid rate about 20 miles off the Oregon coast the heavens were darkened and in a few minutes thousands of humming birds alighted on the vessels. Over 300 birds were captured by passengers and crew.

Elevated by the Pope.

ROME, April 19.—The secret consistory today was largely attended. The Pope elevated the Archbishops of Lyons, Rennes, Rouen and Santiago de Compostela to the Cardinalate, and formally proclaimed the previously named Bishops of Buffalo, Cheyenne, Wilmington and Mobile.

FURNITURE NEWS
April furniture selling exceeds all months in the year with us. Not that the month makes the price; but our orders in December for April delivery saves us a lot, and you get the benefit. We can sell as cheap in July if there are any left-overs but there are not—often.

We are making new records this month—others may be tempted to copy, but where's the use, our prices are the lowest—everybody acknowledges that. Such values are not to be missed.

Enameled Iron Bedsteads

with full brass trimmings, are among the prettiest novelties introduced in the furniture line. We have a half dozen styles, one prettier than the other. Full width and length, made for wear and comfort. Kings sleep on the \$12 style, why not you?

It's only fair to repeat the notice we have had before. We do reupholstering at a trifle above cost of material: this is an odd season and we must keep our factory men busy. It doesn't pay to spend even a little money in making over cheap furniture, but it does pay to reupholster really good frames.

Indurine.

COLD WATER PAINT

Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by anyone, and will always produce good work.
It is VERY WHITE, extremely reflective and hardens on a wall like stone, and will take any tint.
It will last for years and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.
It can be used on any surface and for all classes of work, even for the finest decorating.

OUTSIDE INDURINE.

This Is for Outside Work.

Such as Fences, Outbuildings, Laborers' Quarters. It is a thick paste to be diluted with cold water, stands rain and exposure as well as oil paint, and costs but a fraction as much.

Cold Water Kalsomine

Adapted for Dwellings, Offices and Public Buildings or any other place where KALSUMINE is used. It will not rub, discolor or scale off.

LUCOL

A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.
